

BY AUTHORITY.

Water Notice.

In accordance with Section 1, of Chapter XXVI of the Laws of 1896:
All persons holding water privileges or those paying water rates, are hereby notified that the water rates for the term ending Dec. 31, 1896, will be due and payable at the office of the Honolulu Water Works, on the 1st day of July, 1896.

All rates remaining unpaid for fifteen days after they are due will be subject to an additional 10 per cent.

Rates are payable at the office of the Water Works in the Kapoowea Building.
ANDREW BROWN,
Supt. Honolulu Water Works.
Honolulu, H. I., June 15, 1896. 330-141

SATURDAY, JUNE 27, 1896.

LOAN FUNDS ASSURED.

Up till yesterday applications had been received at the Treasury for \$375,000 of the new five per cent loan for public improvements. This amount is enough to assure that, as soon as the bonds are ready, there will be money for all the public works that the Government can conveniently handle immediately. As previously reported, the new central fire station will be one of the first works to be accomplished. The plans for it are in an advanced stage of preparation. The addition to the public laundries will be completed at once. This establishment will return its cost in yearly license fees and then be a source of current revenue. New schoolhouses throughout the group will spring up forthwith, upon the sale of the bonds already bespoken. It is not the intention of Minister Damon to push the sale of bonds much ahead of the Government's requirements, as otherwise interest would be accruing upon idle money. The new loan may safely be said to be one thing omitted from the blank synopsis of the useful work done by the Legislature of 1896 lately published by an anonymous satirist.

Ask Your Grocer For It.

A Handsome Dog.

Captain Jamieson, master of the schooner Spokane, a staunch and rapid vessel plying between this port and San Francisco, and occasionally making the Sound ports for a lumber cargo, has one of the most famous dogs in the world aboard his ship this trip. The animal is of the Saint Bernard breed and, although less than a year old, weighs over one hundred and fifty pounds. There is only one dog on the Pacific coast related to him, and probably not over a dozen members of this particular canine family in Christendom. The gigantic puppy is a sight to behold.

These dogs, whose fame as life savers in the snow fields of the higher Alps is world wide, are rare for several reasons. The pure breed is hard to obtain, is not prolific and is, although unaffected, apparently, by intense cold, susceptible to climatic change to a very large degree, especially during the first six months of their existence. In the equable climate of these islands they ought to thrive without a bit of trouble.

Timely Topics

Over the purple profile of the Waianae range the iridescent gleam of the variegated after glow suffuses the western sky. A soft breeze blows over the town, rustling the foliage embowering thousands of verandas. Marsden's bats go forth in quest of beetles, their uncanny wings fanning the whiskers of the "free and independent," as they sit enjoying their post-prandial cigar and meditating on the Registration Act. Bill Williams puts his number tens on the ladder and mounts to his eyrie at the mouth of the peaceful harbor, where, with a Japanese safety match he lights the lantern that warns the mariner against taking the Miowera's overland route into the desired haven. "Let fall the curtain, wheel the sofa round, and so let peaceful evening in."

What a pretty introduction to a novel could be made out of a Honolulu evening! The picture is incomplete, however, without ringing in a handsome parlor lamp. We have your choice of many varieties of hanging lamps in the most artistic styles—silver, bamboo, black iron, porcelain, etc., with elegant shades. If it's "light on the subject" you want, you may just as well have it in style. The prices will not be in your way, you cannot get lower for equal value elsewhere. Don't bother any more with that worn-out lamp, but treat your household to a "thing of beauty" that will shed a nightly glory over your domestic happiness and pleasures.

Some people may have tried to convince you that the monarchy of the oil stove has been abrogated in favor of other inventions. Don't give any countenance to such a notion. The oil stove has kept right ahead with the march of progress, until its improvement has culminated in the Blue Flame Oil Stove that we sell. If we have told any of you that our stock was exhausted and would not be replenished for some little time, we must take it back as we do now gladly. The Monowai agreeably surprised us with a fresh lot, and they are now opened out. None who saw the experiments in cookery performed on this stove in our store recently will need to be informed of its superior merits. Any who did not have that opportunity are welcome to enjoy satisfactory demonstrations of the stove's qualities on application. One thing about us is that we never try to sell goods on the chance that they may give satisfaction. We want our customers to be thoroughly convinced that they are getting value for their money before they part with it. With the full consciousness that our business reputation is at stake, in regard to this as well as to other standard articles that we advertise, we unhesitatingly recommend to you the Blue Flame Oil Stove.

W.W. DIMOND'S

Our advertisements in the daily papers attract more wanters than we know what to do with at times, but they are indulgent with us and if they cannot be waited on the minute they get in the store there are attractive bits of crockery and glassware to occupy their attention for a few minutes. It's the shoppers and buyers that make us happy. If the rush continues the force of clerks will be enlarged. Advertising suits us.

If it is a steak or a chop, it's all the better for broiling, if you have the right sort of broiler. The Unique is the one that broils both sides with least trouble. No danger of burning fingers with a Unique.

Every housewife uses raisins to a degree in cooking; the bother has been in the seeding. An Automatic seeder will seed a pound in five minutes and all the machine costs is a dollar and a half.

The Columbia Egg Beater goes to you for a quarter. Another style works quicker and has a graduating glass; costs 60 cents, but it is worth the difference.

The patent chimney cleaner cleans the glass at one movement of the hand and prevents possibility of breakage. Don't cost much, but it's worth a dollar.
